

PROFESSIONAL SERVICES

OVERVIEW

Already got systems? Of course you do—that’s the point of a portal! And we’re here to make sure you get the most out of your existing investments in Web technology.

We’ll help select the “best” path to integration, one that is practical, cost efficient, and makes users happy. We do it without over engineering or under delivering. This is where our experience shines.

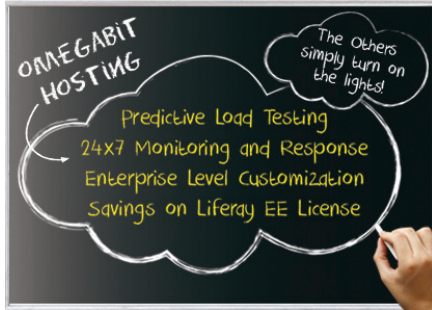

Enterprise Edition Support

We know Liferay inside and out. Got a library conflict? We can help find it. Theme not working? Call us first. Buy Liferay Enterprise Edition through us and we also become your Tier-I support provider, saving you time and money by letting us manage the issues and ticket reporting for you. Omegabit offers an entire suite of production management services to keep you up and running.

- Monitoring & Fault Response
- Enterprise Backup Integration Services
- Tracking & Usage Statistics Integration & Reporting
- Scaling & Performance Optimization
- Domain & Digital Certificate Registration and Management
- On-Call & Emergency Support

Additional Professional Services

- LDAP Directory Services Hosting
- SAML and CAS SSO Infrastructure Hosting
- SSO and Directory Integration with Liferay
- Custom backend and workflow integration for advanced profile change management

Identity Management & Directory Services

Our infrastructure is designed to accommodate private BOVPN backchannels to your enterprise services to ensure secure links to your systems. We are experts at implementing Identity Management and integration with back-end systems.

Development Lifecycle & Change Management

We take the pain out of change management and can help with automation, tooling, code pushes—consider us an extension of your administrative team.

Load Testing, Performance Tuning, Optimization

We specialize in performance-tuned Liferay and guarantee to provide the most optimized Liferay hosting experience, out-of-the-box.

For large-scale, high-performance, and some custom implementations, that may not be enough. We offer a variety of services to help custom-tune installations that need to squeeze every ounce out of the stack.

eCommerce

We are proud to partner with ForgeLife. The ForgeLife eCommerce Suite is built to support the most common eCommerce needs for small- to medium-sized enterprise companies. The Suite integrates seamlessly with your Liferay installation and is scalable when your business needs require it.
